### Description:

Thermal lining fabric for curtains, works great as an insulation barrier against draft coming from windows and doors, keeps a room cosy and warm during winter, keeping your heating bills down.

Save further money and use this as a dual purpose fabric, for its thermal properties and blackout, works well as a blackout lining with light weight curtain fabric, however if you want to achieve total 100% blackout we recommended a total blackout fabric

137cm width

Polycotton construction with a coated thermal backing, request a sample to approve the fabric quality
