

## Spacer Fabric

### Available Colours:

Black

Chocolate

White

Product code: KBT8608-B135-2  
**Selected Colour:** **Black**  
Width: 150cm  
Price: £7.99/mtr

### Description:

Spacer fabric uses a microfilament yarn between two fabrics which creates a breathable "microclimate" between the layers making heat and vapour easy to pass through.

### Ideal for

- Backpacks
- Car seats
- Cushioning

This fabric has naturally ventilating properties.

Used for a wide variety of applications.

Ideal to place underneath heavy objects at rest to stop scratching of the under-surface. For example, a heavy sewing machine on a polished table placed on a mat of spacer fabric will not scratch the table.
