Product code: KBT9102-F136-U8
Selected Colour: **Platinum**
Width: 150cm
Price: £14.99/mtr

Description:

Introducing an elegant collection of a high quality upholstery velvet fabric.

This exceptional fabric is ideal for upholstery projects as the sleek and smooth velvet boasts a surface which is beautifully soft to the touch, yet has a toughened underside which adds to the durability of the velvet.

This superior velvet fabric has a closely napped smooth and sleek pile which seems to melt to the touch so it looks and feels great on;

- Sofas
- Armchairs
- Heavy Drapes
- Cushions
- Headboards

The tough underside layer gives the extra dimension of strength to the velvet, a helping hand to the natural durability of this high quality fabric.

The fabric meets the requirements of the 1988 fire regulations act, section Bs5852. Being fire retardant also makes it the ideal choice to use for public spaces as they often have to adhere to strict guidelines.

This fabric is popular with hotels, bars and restaurants and is used for seating, wall panels and soft furnishings.

Vintage furniture or pieces that need a little TLC could be dramatically transformed by changing the fabric and upcycling to this velvet. Opulent one off pieces like a vintage chaise lounge or a sleek 60's sofa can be given a new lease of life. The colours available in the plush velvet are a sophisticated range of block colours from deep tones of berry to cool teal. These would work well in contemporary or classic interior designs.

If you want to see more about this velvet and its uses, have a look at our informative Blog, [Smooth Operator - Luxury Soft Feel Upholstery Velvet](#)

- Sleek smooth and soft
- Rich colour
- 100 % Polyester
- Fire retardant BS5852
