

Cow Print Soft Coral Fleece

Available Colours:

Cow

Product code: KBT9327-F61-B100
Selected Colour: Cow
Width: 150cm
Price: £6.99/mtr

Description:

Bold black and white cow print onto super soft coral fleece. Coral fleece boasts a fuller texture than regular fleece. The fabric is created from many fine fibres creating a pile, rather than a brushed surface. The very recognisable black cow splodges cover the white fabric in a large pattern. This fun fabric could be used for a number of reasons. If you need to make a cow costume or you are simply a huge fan of these wonderful animals then this is the fabric for you! The fluffy and very cosy surface would also be perfect for making clothing to lounge in, like onesie's, oversized hoodies, pyjamas and dressing gowns. Or you could drape the furry fabric over armchairs and beds for a funky monochrome look, this looks great with lots of bright colours around.

- Fancy dress costumes
- Soft fluffy fabric
- Slight stretch
- Cow print
- Make throws and cushion covers

winter fleece fabrics are a popular choice for cold weather gear due to their softness, warmth, and durability. They are available in a wide variety of types, each with its own set of benefits, making them a versatile choice for a range of items.
