### Available Colours:

Red Stars

Product code:	KBT9328-F61-B100
<b>Selected Colour:</b>	<b>Red Stars</b>
Width:	150cm
Price:	£6.99/mtr

### Description:

Bold red stars cover this bright white coral fleece fabric in a vibrant red and white design. The red stars are printed directly onto the soft fabric in an outline or a block print in bright red. Coral fleece has a different texture than classic fleece, using 100 % polyester. The pile is created using long silky smooth fibres, resulting in a very soft effect that is almost like fur. This fabric feels really soft and cosy, great for throws, blankets and big cushion covers.

- Red and white print
- Star motif
- Soft Coral fleece fabric
- For throws, blankets and cushions

Coral fleece, also known as coral velvet, is a type of fleece fabric that is known for its softness and warmth. It is made from a blend of polyester and spandex fibres, which gives it a stretchy and fluffy texture. The fabric is characterized by its short, dense pile that is similar to the texture of velvet.

Coral fleece is a popular choice for winter clothing and home textiles due to its warmth and softness. It is often used in the making of blankets, throws, and bedding, as well as clothing such as hoodies, sweatshirts, and pyjamas. Because of its stretchy nature, it is also a popular choice for baby and children's clothing, as well as activewear.

In terms of benefits, coral fleece is highly absorbent, making it ideal for use in bathrobes and towels. Additionally, it dries quickly, making it easy to care for. It is also resistant to pilling, shrinking and fading, making it a durable and long-lasting fabric.

Overall, coral fleece is a popular winter fabric due to its warmth and softness. Its stretchy and fluffy texture make it a versatile choice for a wide range of clothing and home textiles. Additionally, it is highly absorbent, easy to care for and durable making it a great choice for winter clothing and home textiles.
