

Pink Leopard Print Coral Fleece

Available Colours:

Pink

Product code: KBT9329-F61-B100
Selected Colour: **Pink**
Width: 150
Price: £6.99/mtr

Description:

A very soft version of animal print in both look and feel. The shades used for this big cat inspired print are a pale cotton candy pink and light grey for the rosette markings surrounding a pale pink only slightly darker than the pink background. The lovely soft pile of the coral fleece complements this fabric perfectly. This super cosy fabric would make lovely dressing gowns to snuggle up in or big blankets and throws for when it gets a bit chilly. The very pale pink shade would look good in a bedroom interior with darker pinks and purple fabrics. Or for a lighter room design, pale silver grey and white fabrics would blend well.

- Pale pink leopard print fleece
- Pink and grey print
- Very soft feel fabric
- Make big throws and blankets

Coral fleece, also known as coral velvet, is a type of fleece fabric that is known for its softness and warmth. It is made from a blend of polyester and spandex fibres, which gives it a stretchy and fluffy texture. The fabric is characterized by its short, dense pile that is similar to the texture of velvet.

Coral fleece is a popular choice for winter clothing and home textiles due to its warmth and softness. It is often used in the making of blankets, throws, and bedding, as well as clothing such as hoodies, sweatshirts, and pyjamas. Because of its stretchy nature, it is also a popular choice for baby and children's clothing, as well as activewear.

In terms of benefits, coral fleece is highly absorbent, making it ideal for use in bathrobes and towels. Additionally, it dries quickly, making it easy to care for. It is also resistant to pilling, shrinking and fading,

making it a durable and long-lasting fabric.

Overall, coral fleece is a popular winter fabric due to its warmth and softness. Its stretchy and fluffy texture make it a versatile choice for a wide range of clothing and home textiles. Additionally, it is highly absorbent, easy to care for and durable making it a great choice for winter clothing and home textiles.
