Description:

Energy Reflecting Light Weight Sheer Fabric

Very effective energy efficient fabric ideal for Heat Reflecting and Heat Retention, minimises heat loss keeping energy cost down

Light Weight Sheer Fabric is made using thin thread or low density of knit. This results in a semi-transparent look

Ideal use for daytime privacy whilst still keeping heat in or blocking heat out from a room.

Perfect for; Drapes, Curtains, Decoration, interior design, Domestic use, residential, Industrial, commercial, leisure, hotel and hospitality applications.

Excellent outward visual contact to fully enjoy outdoor view even when drawn, blocking out solar contributions, it proves its efficiency by blocking out the heat

The extra wide width of 280cm is an excellent feature means less joins for wider applications
