

Glowltex Hi Vis Fabric

Available Colours:

Hi Vis Orange

Product code: KBT13381-U210
Selected Colour: **Hi Vis Orange**
Width: 160cm
Price: £9.99/mtr

Description:

This fabric is commonly used in the production of safety vests, jackets, shirts, or coveralls worn by workers in construction, transportation, and other industries where visibility is a crucial safety factor. The hi-vis design ensures that the fabric meets safety standards for visibility. This is particularly important in environments where workers need to be easily seen, such as construction sites or areas with moving vehicles. Reflective strips or elements may be added for increased visibility in low-light conditions. The fabric is known for its durability, wrinkle resistance, and quick-drying properties. These qualities make it suitable for workwear that needs to withstand daily wear and tear.

Key Features

- High visibility EN 20471
- 85/15% poly/cotton for durability
- Good colour retention (colour fastness) check website for EN 20471 contrast trims
- Good wash shrinkage & tear strength
- Robust shade consistency
- Excellent abrasion resistance
