Easy to maintain no real specialist cleaning methods to follow will clean using a standard hose pipe and soapy water. However for heavy solid areas a special cleaning detergent can be used and a fabric guard waterproofing agent to prolong its water repellent properties.

An outdoor awning provides a perfect shade on bright sunny days whilst keeping you cool, makes an added feature to your patio will act as an extension to your home creating an extra valuable space for dining outside on warm evenings or on rainy days with family and friends.

This fabric must be fixed at an angle to increase its water repellence; the fabric is not 100% water proof and will let water through during heavy rain, or if fixed as a flat sheet

Commercial Applications: Excellent for creating barriers or extra seating and dining areas for customer along footpaths outside bars, restaurants and cafes can be used for replacing your old damaged or faded awning fabric.

We can apply a back coating fire retardant conforming to fire safety standards.
