Royal Blue

Purple

Product code: KBT6745-B440  
**Selected Colour:** Red  
Width: 92cm (184cm open width)  
Price: £9.99/mtr

### Description:

Hoodie fleece is a very popular fabric for fashion street wear and sports wear. Used to make hoodie tops, sweatshirts, over sized tops, leisure wear and tracksuit bottoms for adults and kids. This fabric is manufactured by way of circular knitting on the latest Mayer & Cie knitting machines using ring spun yarn to give a comfortable feel. The machine creates a tube measuring 92 cm when flat and 184 cm all the way around. Normally the fabric would be slit open from one side achieving an open workable width of 184cm. The outside of the jersey is a fine smooth knit whilst the inside is brushed to create a soft and warm pile. The fabric blend is a mix of 45% Polyester 40% Acrylic 15% Cotton, and has a 280gsm knitted construction. If you want to know more about our tubular fabrics, just click here to view our [Totally Tubular Fabric blog](#).
