Product code: KBT7848 F141-U152  
**Selected Colour:** **Royal 321**  
Width: 137cm  
Price: £9.99/mtr

### Description:

#### **IMPORTANT NOTE:**

**This fabric is sold doubled up, so when you receive the fabric you need to peel it apart to reveal the stunning gloss interior!**

**For an example, if you want 10 metres, please order 5 ! You will receive 5 metres. You just need to peel it apart to get the two lengths of 5 metres to make 10.**

Kiss Laminate is made entirely from PVC with an extremely glossy mirror like finish and a sleek and smooth surface. This PVC can be used for many creative and practical purposes. Because of the nature of the material it's completely waterproof too. Cosplay enthusiasts and costume designers will love the super shiny effect; the material is thin enough to make outfits out of and robust enough to get plenty of wear out of.

For visual merchandising and décor Kiss Laminate is a real show stopper. It can be used as wall covering, for props and stands. Cutting this fabric is simple too. You can use scissors or a fine blade to cut out detailed shapes. Again remember this comes doubled up so if you order 6 metres you will receive 3.
